### Important Risk Information

*Investing involves risk, principal loss is possible, and there can be no assurance that investment objectives will be achieved. Past performance is not indicative of future results. The principal risks of investing the US Mid Cap Multi-Style Fund are equities securities risks, limited operating risks, management risks, derivatives and futures and mid-capitalization securities risks. Mid-cap companies often have narrower markets, limited managerial and financial resources, more volatile performance and greater risk of failure, compared to larger companies. These factors could increase the volatility, performance and share price of the Fund's portfolio. For more information on the risks associated with this strategy, please refer to the Fund prospectus.*

*Mutual Funds involve risk including the possible loss of principal.*

Past performance is no guarantee of future results. Rated against 402 US Mid-Cap Blend funds, as of 09/30/2024, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics.

As of 09/30/2024, Morningstar rated the Acclivity Mid Cap Multi-Style Fund as 4 stars overall and 4 stars over a three-year period. The overall and three-year rankings reflect a comparison against 402 and 402 funds, respectively, within the US Mid-Cap Blend fund category. The Morningstar Rating™ for funds, or "Star Rating", is calculated for managed products (including mutual funds, variable annuity and variable life sub-accounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics.
